

Flow into Health!

Natural, Organic **Germanium** both improves circulation and decreases muscular pain.

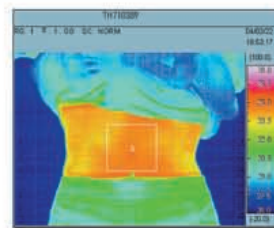

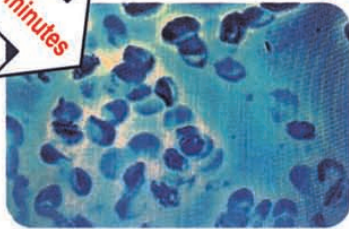

Our bodies are delicate organisms which are regulated by a balance of negative and positive electrons. Modern living causes stresses on the body. We're bombarded with an overflow of positive electrons from cell phones, microwave ovens, etc. which leads to all sorts of sickness and pain. Germanium provides a safe and effective means of bringing our bodies back into balance. Once our fabric products touch human skin, they release negative electrons, soothing pain and leading to much greater circulation throughout the whole body.

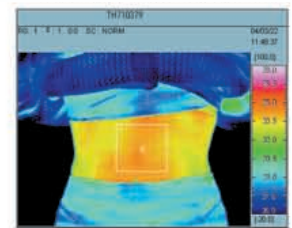

↑ The blood cells above are deprived of nourishment and oxygen and therefore are thick and compressed. When blood corpuscles clump together, this can cause unhealthy symptoms such as muscle and nerve pain.

In 60 minutes

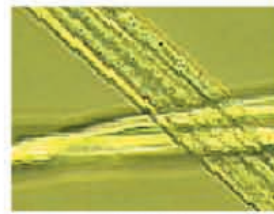

After using products made from Germanium fibers (Chio Clean), the red blood corpuscles have returned to their normal, healthy state and are flowing freely. ↓

TESTIMONIAL

"Neck pain has plagued me for years leading to long bouts of simply lying in bed. Chio Clean patches eased the pain and led to much better circulation in my body. I was up and moving much quicker!"

A. Thompson (Irvine, CA)

"I suffered from severe carpal tunnel syndrome for some time and was facing surgery. Chio Clean products erased my pain and in a little under a week I was completely free to type and use my hands with a much wider range of movement."

S. Wasserman (Switzerland)

"My knees were killing me. When I found the Chio Clean knee supporter and initially tried it, I was amazed at how soon the pain subsided. Suffering from water on the knee for some time, it was healed in short time."

M. Kaliski (Laguna Hills, CA)

"Rheumatoid arthritis has plagued me for years. It was so frustrating to not be able to move my fingers when I wanted. Chio Clean patches placed directly on my aching joints really alleviated much of the pain and led to a much greater freedom on movement."

M. Asai (Torrance, CA)
